Feasibility Report and Environmental Assessment
27th Street Bridge Section 14 Emergency Streambank Protection
Glenwood Springs, Garfield County, Colorado

The U.S. Army Corps of Engineers, Albuquerque District, has completed the **Feasibility Report and Environmental Assessment (FREA) entitled “27th Street Bridge Section 14 Emergency Streambank Protection, Glenwood Springs, Garfield County, Colorado”**. The project would protect the existing 27th Street Bridge in Glenwood Springs, Colorado by placing rip-rap boulders around the existing bridge piers. The project is being conducted under the authority of Section 14 of the 1946 Flood Control Act, as amended. This authority allows construction of emergency streambank protection for public facilities. Construction is proposed for the late summer of 2008 through early spring of 2009.

A copy of the final FREA is available on the Corps web site at <http://www.spa.usace.army.mil> (click on FONSI/Environmental Assessments). Hard copies of the documents may also be requested from the Corps by contacting Ondrea Hummel at Ondrea.C.Hummel@usace.army.mil or (505) 342-3375.
